Name: Sergeant Ian Malcom

Gender: Male

Age: 35

D.O.B.: 2526

Hair Color: Red

Eye Color: Green

Race: Irish

Dossier: Sergeant Ian Malcom was born on the lush planet of Northaven, one of the more obscure planets in the outer rim colonies. Founded in 2450 by Irish colonists, the planet contains a several large settlements with a total population of 3 milion. Not large enough to warrant UNSC protection, the citizens of the planet have developed a fierce independance, as well as a small but elite planetary defense force. Despite its relatively isolated location, Northhaven is visited frequently by UNSC patrol and recruitment fleets.
>Sergeant Malcom joined the Northhaven Planetary Defense Force in 2540, roughly a decade before the discovery of the Convenant at Harvest. Recruited into the UNSC in 2545, he spent several months as a Marine fighting in the Outer Rim Pacification Wars. Quickly realizing his combat potential, Malcom's superiors recommended he be transferred to the ODST academy, which he entered in 2546. In 2549 he graduated, entering service just before the Convenant War
Though he was promoted to Master Sergeant for valorous actions in the Outer Rim Wars, Malcom was busted back down to Regular Sergeant for striking a superior officer. Another similar incident resulted in a court-martial, followed by his transportation to a penal unit in 2550.
>In 2552, he was reactivated and sent to the ODST 3rd Regiment, the 'Hellraisers', one of the units that participated in the Harvest reclamation campaign.
Pschye Assesment: With an ice-cold

personality, Malcom is normally calm and controlled, but prone to fits of violent temper in certain situations. Despite this, he is held in high regard by his fellow soldiers, particuarly because of his excellent marksmanship, both in training and in the field.

M.O.S.: Sniper

Awards: Purple Heart (2)

Personal Interests: Chess(As requested, I attempted to find a file from his application form as to his personal interests, but I was unfortunately unable to find very much information)

Name: Khell Dracan
>
Gender: Male
>
Age: 32
>
Race: Basically Irish
>
Physical Description: 6' 0" tall, copperish red hair, with a beard that is so stubborn he long ago stopped trying to shave it off, and pale skin. Several scars, from the plasma burn on his left shoulder, to the claw mark on his right cheek (cliche no?).

>
History: Enlisted at 20. Promoted to Sergeant at 27. Your typical bad ass kind of Sergeant who seems to know everyone and everything. Well known for going toe-to-toe with an Elite with nothing but his combat knife. It's where he got the claw marks. Has been in combat with SPARTAN's a few times but is very creeped out about them.
>
Personality: Very cold, serious kind of guy that only leaves a man behind when there is no choice. Respects the abilities of SPARTAN's but considers them as something half-human, half-Covenant. Is much more friendly with his squadmates then anyone else. Has a special hatred for Elite's.
>
Hobbies: He really enjoys reading and an ancient game called BattleTech. No one knows where he found it, but whenever he's on a ship and not in combat he pulls out a battered box and sets up the game. He always gives the other soldiers an advantage but manages to win every time.
>
Weaponry: Prefers an assault rifle and a sawn-off shotgun that he made himself. Carries a plasma pistol hidden on his person for leveling the playing field with Elite's.

Name: Robert (Rob, Robby, Lunatic)
>
Gender: Male
>
Age: 20 (not real age but I'll make it this for
>your story)
>Hair color: messy Brown hair
>Eye Color: Foggy blue
>Race: A mix of things(mostly Italian and Irish)
>History: Not much is known about him, mainly because he keeps his past, family, and friends a secret from others. But what is known is how he fights. A risk taker but usually pulls through at the end. A very mysterious marine that seems to have no past.

>Hobbies: Whenif he ever gets a break from battle he tries to draw or sketch something. Very artistic, and takes his time to observe something. He often daydreams a lot but about what is unknown to the others. When in battle he enjoys picking off enemies one by one with a sniper rifle.
>
Personality: A mysterious figure and hard to get to know, At times he opens up and relaxes but at other times he can get deadly serious. He was nicknamed the Lunatic from the risks he takes in battle. He might seem dark and cold but if you get to know him you'd see that he'd end up risking his life for anyone.

Auhtor's Note: Well that's the team. I know I said 5 characters but all the characters were so good I had to choose 6 of you. I'm sorry to the people that weren't picked but c'est la vie. Story will come soon so look out for Halo: Lost Marines!
